Faculty Prepare for a Changing World

Our faculty members are becoming Global Education certified by the US Dept. of State. They are growing as globally competent educators in order to develop and incorporate practical instructional strategies for our classrooms.

Our teachers are learning how to help our students learn to investigate the world and conduct deep inquiries into other cultures and places. They help our students recognize their own perspectives in relation to others' perspectives making our students better prepared to be agents of change in today's world.

Magnify your perspective!

Lower school students researched Hispanic notable figures and presented their impact on the world to classmates for Hispanic Heritage Day.

Students Participate in World-Wide Synodal Process

The Upper School students participated in the first in a series of **Synod Experiences**. Faculty member Mr. Kyle McCaffery led the efforts to engage our young adults in the synodal process of listening, dialoging, and learning the nuances of communication. Students watched a short theological skit and then broke into multi-grade small groups to discuss different topics and work together in exploring ideas. Synodality is happening in the Church around the world. Pope Francis states, "It is precisely this path of synodality which God expects of the Church in the third millennium."

You can learn more about the Synod at usccb.org/synod.
