Summer Camps & Enrichment Programs

It's Never Too Early to Start Planning

St. Mary's is planning sports camps, science camps, and art camps for June and July. Additionally, we intend to have academic enrichment programs for students who wish to further develop educational learning skills. Watch for more information this spring.

Over 40 lower and middle school students participated in Camp Invention this past summer. Students developed creative problem-solving skills and participated in the spontaneous design and construction of four devices.
